Minutes of the "per rollam" vote

From the meeting of the Committee for the study program: Inorganic Technologies and Non-Metallic Materials in doctoral degree

Realized from July 11, 2023 to July 13, 2023

Based on the internal document 2-U-013 "Rules for the internal system of quality assurance and evaluation of higher education, creative activities and other related activities at Alexander Dubček University of Trenčín", the chairman of the Committee for the study program prof. Ing. Dusan Galusek, DrSc. requested the members of CSP to vote per rollam via e-mail about the proposal regarding the update of the study program.

Participated in voting:

prof. Ing. Dušan Galusek, DrSc., doc. Ing. Robert Klement, PhD., Ing. Dagmar Galusková, PhD., doc. Dr. Ing. Peter Vrábel, Bruno Wolfrum, MSc.

Voting:

The adjustment concerns:

1. Changing the name of the subjects: We propose to change names from "Active participation in an international conference I" and "Active participation in an international conference II" to "Active participation in the conference I" and "Active participation in the conference II".
2. Updating the number of credits and conditions for completing individual modules.
3. Editing of the document The minimal criteria of creative activities for doctoral students in the study program "Inorganic technologies and non-metallic materials". The modifications concern the change of the name of the subjects Active participation in a conference I and II, and we also propose the removal of one output of creative activity - "Active participation at an international scientific event with the presentation of results of a dissertation project". This is a duplicate activity that is included in "Active participation in the conference I".
4. Editing of Information Letters - editing Information letters is based on the above-mentioned editing proposals.

Output of the voting:

FOR: 5

AGAINST: 0

NOT VOTING: 0

Result:

Members of the Committee for the study program: Inorganic Technologies and Non-Metallic Materials in doctoral degree approved proposed updates in study program : Inorganic Technologies and Non-Metallic Materials.
